WORK HISTORY

Senior Front-end Developer

RCG Global Services, *Philippines*, June 2021 - August 2022

- Revamped and streamlined CSS for Disney Visa card banners by implementing scalable parent-child styles, resulting in an 80% decrease in reported bugs and a 20% increase in efficiency in maintaining and updating 50+ banners
- Programmed new visa card and promotion pages for Disneyland, DisneyCruise, and DisneyWorld, accessed by millions globally
- Implemented web accessibility and mobile responsiveness across different screen sizes
- Performed a code review of pull requests to ensure code is 100% compliant to all standards and style guidelines of the team

Senior Front-end Developer

CoreBridge, *Philippines*, January 2019 - June 2021

- Led a 5-member team to migrate the old user interface / UI to an MVC design patterns, utilizing modern technologies such as Angular, HTML, CSS, and JavaScript
- Ensured on-time task completion for a critical multiple trade show demo, resulting in the successful onboarding of multiple clients, demonstrating product quality, strong project management and collaboration skills
- Provided technical guidance and leadership, which included facilitating daily scrum meetings, tasking out stories, and mentoring team members
- Conducted bi-annual performance evaluations of 5 team members, providing constructive feedback and guidance, which contributed to individual growth and overall team success

Web Developer

CoDev, *Philippines*, January 2015 - January 2019

- Learned Angular within 2-weeks to build new features for a SaaS enterprise software which provides language translation service and programmed new quality checker application which received a patent
- Individually design, code, test, and deploy client's Intouch Recovery Program website using PHP, HTML, jQuery, MySQL, and REST APIs
- Expanded solo team to nine members, which brought estimated \$324,000 income per year to the Company
- Maintained and fixed production bugs for a Supply Chain Platform with 100M transactions

PHP Developer

Dynata, *Philippines*, July 2009 - January 2015

- Programmed market research surveys for phone centers or the web
- Deployed daily at least 2 web or phone survey forms
- Programmed the real-time online reporting tool for the client and project management team

EDUCATION

Post Graduate Diploma in Mobile Application Design and Development

Lambton College, Toronto, ON Canada

September 2022 - April 2024 (Expected)

Bachelor of Science in Computer Science

Visayas State University, Philippines

June 2005 - April 2009
